Contents of volume 39

Volume 39, Nr. 1, JUNE 1999

Special issue: Rapid Prototyping and Manufacturing Technologies

Editorial

1

Papers

3 *D. Kochan, C.K. Chua and Z.H. Du*
Rapid prototyping issues in the 21st century

11 *B. Wiedemann and H.-A. Jantzen*
Strategies and applications for rapid product and process development in Daimler-Benz AG

27 *T. Himmer, T. Nakagawa and M. Anzai*
Lamination of metal sheets

35 *H. Dürr, R. Pilz and N.S. Eleser*
Rapid tooling of EDM electrodes by means of selective laser sintering

47 *B. Mueller and D. Kochan*
Laminated object manufacturing for rapid tooling and patternmaking in foundry industry

55 *H. Noguchi and T. Nakagawa*
Manufacturing of high precision forming tool transferred from laser stereolithography models by powder casting method

61 *J.G.K. Gan, C.K. Chua and M. Tong*
Development of a new rapid prototyping interface

71 *G. Matar*
The hexapod initiative—configurable manufacturing

Volume 39, Nr. 2, JULY 1999

Editorial

vii

Papers

79 *Q. Xia and M. Rao*
Actuator and sensor design for operation support systems

97 *W.M.P. van der Aalst*
On the automatic generation of workflow processes based on product structures

113 *Y.-J. Tseng*
A modular modeling approach by integrating feature recognition and feature-based design
127 *K.L. Mak, S.T.W. Wong and H.Y.K. Lau*
An object-oriented rule-based framework for the specification of flexible manufacturing systems
147 *Y.-S. Lee and C.J. Chiou*
Unfolded projection approach to machining non-coaxial parts on mill-turn machines

Volume 39, Nr. 3, AUGUST 1999

Special issue: ASI '97, Control Optimization

Editorial

175

Papers

177 *G.L. Kovács, S. Kopácsi, J. Nacsa, G. Haidegger and P. Groumpos*
Application of software reuse and object-oriented methodologies for the modelling and control of manufacturing systems
191 *F.F. Pashchenko and K.R. Chernyshov*
A concept of knowledge-based identification of nonlinear systems
199 *C.R. Peres, R.E.H. Guerra, R.H. Haber, A. Alique and S. Ros*
Fuzzy model and hierarchical fuzzy control integration: an approach for milling process optimization
209 *G.A. Rovithakis, V.I. Gaganis, S.E. Perrakis and M.A. Christodoulou*
Neuro schedulers for flexible manufacturing systems
219 *K. Santa, S. Fatikow and G. Felso*
Control of microassembly-robots by using fuzzy-logic and neural networks
229 *C.D. Stylios and P.P. Groumpos*
Fuzzy Cognitive Maps: a model for intelligent supervisory control systems
